

# How to set AUTO-SIM function?

- a. Open AT command port (Please refer to [Slide 2](#))
- b. Send the commands below:

```
//set auto-sim
```

```
AT!ENTERCND="A710"
```

```
AT!impref="AUTO-SIM"
```

```
AT!RESET
```

Note: Please confirm the Firmware/PRI has been downloaded to the module.

# How to use AT command for SDX55 chipset on Windows (EM91 Series/EM7690)?

- For MBPW Release 31 or newer, please add “**EnableUDE=1**” in configuration.ini, then install the driver.
- Open Device Manager and find **Modem Port**
- Right click -> properties -> Modem -> Port: COMx
- The example is COM13
